2022 DATA VINTAGE

PURPOSE

- As the tourism industry navigates through the global pandemic of COVID-19, the British Columbia Regional Tourism Secretariat (BCRTS) will provide baseline research to support the industry
- Baseline visitor analysis will help industry understand who is visiting our regions so they can plan strategically to attract visitors who will support their recovery
- The program has commenced with the **BC Market** as the top priority to coincide with the PHO travel recommendations for British Columbia, followed by the **Alberta Market**
- This report focuses on visitor analysis to the **Kootenay Rockies Region**

RESEARCH OVERVIEW

2022 Visitor
Highlights

bcrts

- Environics Analytics is a Canadian based research firm providing information solutions for a variety of industries in both the Canadian and USA Markets
- Visitor View Canada provides insights the tourism industry needs to understand, market to and grow their business with Canadian travellers
- Visitor View produces neighborhood-level estimates of overnight Canadian visitors to **Canada**, the **provinces** and **territories**, or one of Canada's **85 tourism regions** as defined by Destination Canada
- Estimates are provided for the **total number of visitors**, the **number of trips** and the **number of nights spent** in each province or tourism region
- Visitor View is based on anonymized, consent-based mobile location data Monthly, quarterly and annual estimate data is available starting with January 2018 to allow for analysis of historical trends

Methodology

- **Visitor:** A visitor is defined as someone who travels 60+km from their point of origin
- **Trips:** Are defined as the count of domestic traveller trips which involved spending one or more nights over the time period as part of a continuous visit to the destination
- **Nights Stayed:** Is defined as the count of unique nights a domestic visitor was observed in the destination over the time period (between 6:00pm – 8:00am the following day)

RESEARCH OVERVIEW

2022 Visitor
Highlights

bcrts

- Measure the effectiveness of your marketing strategies on Canadian Visitors, the Canadian travel and tourism industry and understand the impact of the worldwide COVID-19 pandemic as it relates to Visitors, Number of Trips and Number of Overnight Stays within **Canada**, its **provinces**, **territories**, and **tourism regions**
- Using Visitor View we can compare the number of visitors and their travel patterns by month in 2019, 2020 and 2021
- We can also compare different regions to assess the impact of the pandemic on Canadian travel patterns and identify when visitors start to return to British Columbia's respective tourism regions
- Identify the best regions and neighborhoods in Canada to prospect for new visitors and use the PRIZM Segmentation System to optimize experience development and marketing
